ROUND BRUSH WITH WOODEN HANDLE

Short handle for glue, long handle for dyes.

Size	Short Handle	Long Handle
2	AC-350-003-02	AC-350-014-02
4	AC-350-003-04	AC-350-014-04
6	AC-350-003-06	AC-350-014-06
8	AC-350-003-08	AC-350-014-08
10	AC-350-003-10	AC-350-014-10
12	AC-350-003-12	AC-350-014-12

GLUE POT

Suitable for most adhesives, lacquers and other materials that evaporate. Reduces solvent loss and helps maintain correct viscosity. Tight fitting cap stops solvent loss. Brush wiping bar prevents materials from getting on the outside. Brush storage in cap keeps it soft.

Reference	Description
FS-MXB-GP-90	0.90 liter (1 quart)
FS-MXB-GP-150	Maxi, 1.5 liter (1 1/2" quart)
FS-MXB-BR-90	Replacement brush for 0.9 liter pot
FS-MXB-BR-150	Replacement brush for 1.5 liter pot

EMPTY GLUE CAN

5/16" Brush in lid. 7 1/2 oz.

Ref.: PEL-1904-6410

1.5 liter

RUBBER CEMENT DISPENSER

Equipped with airtight cap and adjustable brush.

Ref.: FS-A8071

1 quart plastic bottle

FABRICATION SUPPLIES

PQ Polymer Plastic

2-part visco elastic polymer plastic for making shock absorbing insoles, custom orthoses, heel cushions, etc.

Formulated to cold-cure in 5 to 30 minutes depending on the desired thickness, room temperature, etc. The gold (clear) is a slightly slower set than the blue.

Non -allergenic. Will not support fungus. Remains soft and does not absorb moisture. Contains no cells and therefore experiences no localised collapse.

4 1/2 lb kit includes instructions and makes approximately 6 pairs of insoles.

Reference	Description
RIE940-C	Liquid Polymer 2-part kit, Gold (clear)
RIE940-B	Liquid Polymer 2-part kit, Blue
PC-101M	Paper cups 1 oz. waxed, 25/sleeve
RIE954	PQ Mold Release (100% organophy-siloxane) 4 oz. can with brush in lid
704-TB	Tongue depressor sticks, disposable wood, 500 per box

PRESSURE SENSITIVE TAPE

For taping PVA bags. Vinyl backing. Tensile 21 lb/in width. Thickness: 0.007". Elongation at break: 200%.

Ref.: **PEL-470-1** 1" x 36 yards Color: **Yellow**

MASKING TAPE

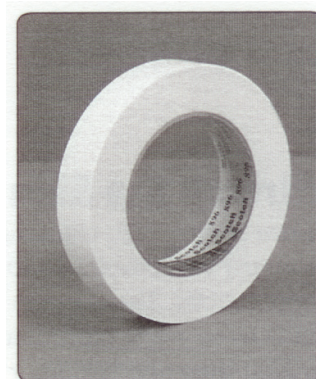

A general purpose tape. Natural color crepe paper.

Tensile 20 lb/in width.

Thickness: 0.0075"

Elongation at break: 10%.

FABRICATION SUPPLIES

QUICK-SIL™ 5-Minute Silicone System

Creates any soft molded part or pad for pressure relief areas in orthoses and prostheses.

Can be used for distal end pads.

Customizes footwear and foot orthotics.

Dual cartridge silicone system eliminates need for mixing and weighing. This fast-setting silicone utilizes a cartridge loaded mixing gun which quickly dispenses a skin compatible silicone exactly where it is needed. Use only the amount of silicone in the dual cartridge that is needed. The static mixer is a disposable tip that is thrown away after use.

Available in 2 durometers: Super soft 2° Shore A (blue): for use in both orthotic and prosthetic applications and soft 7° Shore A (green): for extra strength and resistance to compression.

It is self-leveling, non-shrinking and leaves no air bubbles.

The 330ml cartridge contains the equivalent of 6.6 small cartridges and is more effective for prosthetic applications. Use QuickPrime after a light sanding of area where Quick-Sil will be applied or if more silicone is being applied on top of Quick-Sil. Use adhesive for top cover to adhere to silicone.

Shelf life is 6 months after opening.

Ref.: UC551250-005 50ml Starter Kit includes:
 Quick-Sil Mixing Gun
 2 Silicone Dual Cartridges 50 ml
 10 Static Mixers
 QuickPrime Kit: 2-part primer, mixing plate, brush

Ref.: UC551250-033 330ml Starter Kit includes:
 Quick-Sil Mixing Gun
 1 Silicone Dual Cartridge 330 ml
 10 Static Mixers
 QuickPrime Kit: 2-part primer, mixing plate, brush

Parts and Accessories for Quick-Sil:

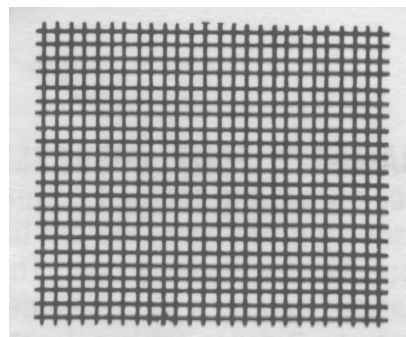

Reference	Description
UC-551251051	Static Mixer for 50 ml (bag of 25)
UC-551251331	Static Mixer for 330 ml (bag of 15)
UC-551251050	Silicone Dual Cartridge 50 ml, 2° Shore A (5 cartridges)
UC-551251330	Silicone Dual Cartridge 330 ml, 2° Shore A
UC-551251332	Mixing Gun 330 ml
UC-551251011	Mixing Gun 50 ml
UC-551251444	Quick-Prime A & B, includes: catalyst and base
UC-551251440	Quick-Prime A & B, includes: catalyst, base, palette knife, cotton swabs, mixing plate

FABRICATION SUPPLIES

FABRICUT WET OR DRY

9" x 11" Silicon Carbide. A waterproof mesh cloth abrasive. Open web permits easy clearance of sanding residue. Ideal for use on plaster casts - wet or dry. Much easier to use than wire screen.

25 SHEETS PER PACK		
Reference	Description	Grit
AC-T8064040	Wet or Dry	80
AC-T8064041	Wet or Dry	100
AC-T8064042	Wet or Dry	120
AC-T8064043	Wet or Dry, Heavy Duty	80
AC-T8064044	Wet or Dry, Heavy Duty	100
AC-T8064045	Wet or Dry, Heavy Duty	120

THE SANDING BUG

The patent pending Sanding Bug that fits snug as a bug in the palm of your hand! The lightweight design, ergonomic handle and iron shape sanding sponge adapts well to mild contours and flat surfaces, reaching into hard to reach corners.

More comfortable to use than traditional rubber sanding blocks.

Reference	Description	Grit	Qty
AC-T80721631	Kit: Sanding Bug and 1 coarse sponge	60	1/PK

FABRICATION SUPPLIES

PVC DOUBLE FACE TAPE

Comes with removable paper backing.

Ref.: PEL-465-13/4" x 60 yards Roll

FILAMENT TAPE

A very strong tape. Rayon reinforced acetate backing.

Tensile 17lb/in width

Thickness: 0.010"

Elongation at break: 15%

Ref.: PEL-896-1 1" x 60 yards Roll

MICRO BALLOONS

Lightest known filler. Mixed with resin for cosmetic buildup.

Ref.: PEL-IG101 White 5lb

SOLKA FLOC

Ref.: PEL-SF-300 5-lb bag

VINYL GLOVES

Not for medical use.
Disposable.

100 PER BOX	
Reference	Size
GLLATSM	Small
GLLATMD	Medium
GLLATLG	Large

CLEAR PRESSURE SENSITIVE TAPE

Transparent. For taping PVA bags. Vinyl backing.

Tensile 17 lb/in width

Width: 0.007"

Elongation at break: 170%

Ref.: PEL-471-1 1" x 36 yards Roll

CLEAR PRESSURE SENSITIVE TAPE

Ref.: 199434 Clear stretch tape 3/4" x 36 yards

Ref.: 807446 Double stick tape 3/4" x 18 yards

ALGINATE

Elastic impression powder suitable for all types of impressions.

Gel time: approx. 3 minutes

Ref.: CC-AOG-200-5 5-lb bag
