

ANKLE-FOOT ORTHOSIS (AFO)

AFO LIGHT

Ankle Foot Orthosis

Characteristics:

- Polypropylene structure with rounded-off edges
- Soft panel to support the calf
- Velcro® strap fastening
- Velcro® strap fastening around the foot
- Thermo-formable

Indications:

- Dropped foot
- Moderate spastic equinus foot

AFO RIGID

Ankle Foot Orthosis, extra strong

Characteristics:

- Polypropylene structure with rounded-off edges
- Nylon structure strengthened with the addition of carbon fibre, grey
- Soft panel to support the calf
- Velcro® strap fastening
- Velcro® strap fastening around the foot
- Thermo-formable

Indications:

- Dropped foot
- Moderate spastic equinus foot

ANKLE-FOOT ORTHOSIS (AFO)

UFO™

Universal Plantar Fasciitis Orthosis

The UFO™ is a comfortable, prefabricated night splint for the effective treatment of Plantar Fasciitis and Achilles Tendinitis. The UFO™ comfortably supports the affected foot in a controlled amount of dorsiflexion, applying a Low Load Prolonged Stretch (LLPS) to the soft tissues of the plantar fascia and Achilles tendon. LLPS promotes gentle stretching, healing and re-modeling of these tissues, effectively reducing the stress and pain caused by inflammation and tissue shortening. Such support can help break the cycle of injury, pain and re-injury due to otherwise unlimited contraction and deformity of the soft tissues at night.

The simple variable dorsiflexion design allows the patient to quickly and easily adjust the amount of applied stretch to provide the most effective pain relief.

- Adjustable bilateral dorsiflexion assist straps
- Coolfoam™ replaceable liner wicks moisture away from the skin for enhanced hygiene
- Non-skid pad included
- Five universal sizes fit both left and right feet

Reference	Shoe Size Men	Shoe Size Women	Foot Plate Length	Brace Height

OR-3623	11+	-	12"	16"

HealPRO™

Cost effective foot and ankle positioning Orthosis designed to unweight the heel and protect the foot from potential ulcers and/or loss of dorsiflexion range of motion. This unique design reduces pressure on the toes from bed linen to facilitate comfort and protect the skin. Designed primarily for patients spending long periods of time in a recumbent position, the HealPRO can improve clearance in swing phase and promote a neutral position during stance for limited ambulation.

The external bootie cover can be used to cover the sole and toes when the patient is out of bed and removed for infection control before the patient returns to bed.

Comes with sizing chart and practitioner fitting instructions.

ANKLE-FOOT ORTHOSIS (AFO)

PEDIATRIC UFO™

Universal Plantar Fasciitis Orthosis

The pediatric UFO™ is a comfortable, prefabricated orthosis for stretching and maintaining dorsiflexion range of motion. This unique lower-limb orthosis positions the foot and ankle in optimal alignment of placing stretch on the soleus while the patient is sleeping. When used in conjunction with a knee immobilizer, this orthosis can also stretch the two-joint gastrocnemius group.

Available with Butterfly or Tornado Transfers.

Indications:

- Cerebral palsy or other neuromuscular diseases
- Idiopathic toe walking
- Severs disease
- Tightness at the foot and ankle
- Following Achilles tendon lengthening

SWEDE•O ARCH LOK®

Modified orthotic footplate provides critical foot and arch support while resisting inversion and eversion.

Three adjustable straps provide almost custom fit. The three-quarter length orthotic footplate also allows earlier weight bearing and return to normal gait.

Medium	SW-12513	SW-22513	9 - 12	10 - 13
Large	SW-12514	SW-22514	12.5 - 16	13.5 - 16

SWEDE•O ANKLE LOK® WITH SIDE STABILIZER INSERTS

The original "Swede•O".

- Removable side stabilizer inserts give extra medial and lateral support when you need it
- Exclusive offset panel secures the laces to keep them tight longer than other braces
- Elastic back ensures unrestricted blood flow to the Achilles' tendon and virtually eliminates blistering
- Short curved arch fits the contour of the foot and is seamless so it doesn't irritate the bottom of the foot

Reference	Men	Women
SW-21211R	3 - 5.5	4 - 6.5
SW-21212R	6 - 7.5	7 - 9.5
SW-21213R	8 - 10.5	10 - 11.5

SW-21215R	13 - 14.5	14 - 15.5
SW-21216R	15+	16+

The Swede-O Ankle Lok® Lace-Up Brace with Stabilizers offers maximum long term support with exceptional comfort. The offset panels trap the laces between the inner and outer flaps to keep the brace tight. When combined with the stabilizers, this brace gives maximum support for extended periods. The elastic back and contoured arch minimize the occurrence of rubbing and blisters. Universally designed to fit the right and left leg.

Color: Black

SWEDE•O STRAP LOK®

Combines the exclusive "Ankle Lok" lacing system with figure-eight straps for maximum support. The non-stretch figure-eight straps simulate a professional taping procedure while the fully adjustable top strap provides additional compression and stabilization. Ballistic nylon construction is thin and lightweight, yet very durable.

ANKLE-FOOT ORTHOSIS (AFO)

SWEDE•O X8 ANKLE BRACE

The Swede-O X8 ankle brace has simplified the strapping system from the cumbersome traditional four strap design to the X8's exclusive twin dual-purpose strap.

These two straps can be applied much more quickly and easily. These specially designed straps secure on both the brace and on each other, allowing them to be used as both the figure-eight and the top locking straps over the laces.

Another feature of the X8 ankle brace is the straps are pre-positioned half way through the figure-eight configuration for easier application and to ensure proper strap placement.

The superior construction and longer length of the straps also allows more leverage to be applied for a much more secure fit and gives the user the option to secure their ankle in slight eversion to better prevent ankle injuries.

SWEDE•O EASY LOK™ ANKLE BRACE

- **Easy as 1, 2, 3:**
 1. Slip on Brace
 2. Secure adjustable closure straps
 3. Enjoy excellent ankle support
- Hook and loop closure straps are easier to use than laces or tape.
- Exclusive ANKLE LOK offset panel provides greater leverage so the hook and loop closure straps can be pulled tighter and will stay tighter longer.
- Hook and loop closure straps are gentler on recently injured ankles and allow for infinite adjustments.
- Side stabilizer inserts included, which provide additional medial and lateral support for chronically weak ankles.
- Full elastic back ensures complete unrestricted blood flow to the Achilles' tendon and virtually eliminates the chance for blistering.
- Short curved heat sealed arch fits the contour of the foot and is seamless so it doesn't irritate the bottom of your foot.
- Triple layer vinyl laminate provides durability and comfort.
