

CERVICAL COLLARS

ASPEN CERVICAL COLLAR

- Provides support and comfort ensuring patient compliance
- Effective motion restriction without producing the painful pressure points that lead to skin breakdown and non-compliance
- Three layers of polyethylene combine to produce a support structure that is extremely rigid yet flexible at its edges to conform to each patient's anatomy
- Layered design spreads the load over a large area, producing a true custom fit, documented not to produce pressure in excess of capillary closing pressure, the underlying cause of skin breakdown

Collar only	With extra pads	Size
ASP-983108	ASP-983128	Adult - Short - 2 1/4"
ASP-983110	ASP-983130	Adult - Regular - 3"
ASP-983112	ASP-983132	Adult - Tall - 3 3/4"
ASP-983114	ASP-983134	Adult - X-Tall - 4 1/2"

Ref.: **ASP-983159** Extra pads

VISTA® COLLAR

- Eliminates the need for sizing methods of any kind
- The innovative design of the Vista® allows the practitioner to simply apply the collar and then adjust to the proper height. Getting the correct size for the patient is easy using the Vista Dial Height Adjustment™ System: Simply pull and turn the dial to select 1 of 6 Vista height settings
- The patented design of the Vista disperses pressure, reducing the possibility of skin breakdown
- Proven Aspen Pads complete the system by wicking moisture away from the skin

CERVICAL COLLARS

ASPEN CTO (CERVICAL THORACIC ORTHOSIS)

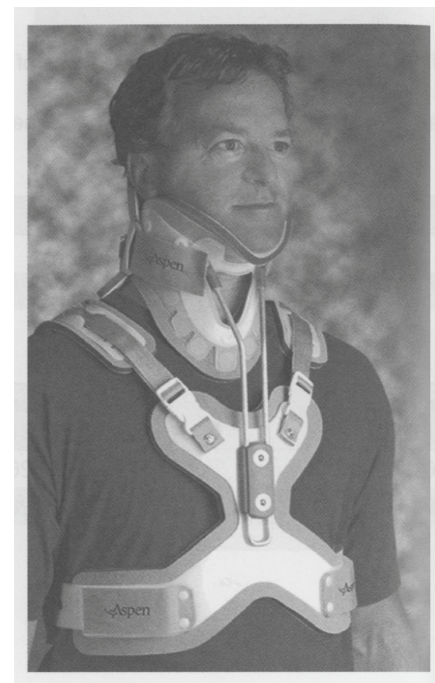

- Spinal Orthosis used to stabilize the upper thoracic and cervical spine in the case of injury, degenerative spinal conditions, deformities or corrective surgical procedures
- Provides anterior-posterior (sagittal plane), medial-lateral (coronal plane) and rotational (transverse plane) control of the upper spine
- Indications for use include stable cervical fractures or dislocations, cervical strains or sprains, post operative stabilization of the upper spine, rheumatoid arthritis and spondylosis or other spine deformities

CERVICAL COLLARS

PHILADELPHIA® ATLAS™ COLLAR

- Restricts cervical spine flexion, extension and rotation to promote patient recovery
- Latex-free, non-toxic and hypoallergenic Velcro® Orthowick™ laminated foam reduces skin irritation
- Adjustable bilateral Velcro® hook and loop fasteners ensure proper fit
- Velstretch™ retaining strap to assist collar application
- Injection molded polyethylene front and back pieces for improved rigidity and durability
- Large trachea opening for quick access to carotid pulse monitoring and emergency tracheotomies
- Two-piece design enhances patient comfort

Collar Only	Collar & Extra Pad Set	Size	Adult Collars Height

X-Large	19 1/2" - 21 1/2"	PEL-T9977N-XL	PEL-T9977A-XL	PEL-T9977W-XL

THE MARLIN CERVICAL ORTHOSIS

- Molded polyethylene anterior frame and occipital component provides rigid support and immobilization
- Limits flexion, extension, lateral flexion and axial motion
- Two-piece design for free air flow ventilation, comfort and ease of application
- A large trachea opening on the Kydex anterior yoke ensures easy height adjustability
- Molded occipital component encompasses an aluminum stay for cervical arch contouring

Reference	Size	Mid-Neck Circumference	Height Adjustment
JS-3050-XS	X-Small	9" - 11"	2 1/4" - 3 1/2"
JS-3050-SM	Small	11" - 15"	2 3/4" - 4"

JS-3050-LG	Large	13" - 18"	3 1/4" - 5"
JS-3050-XL	X-Large	16" - 20"	3 1/2" - 5 1/4"

CERVICAL COLLARS

PNEU-TRAC® TRACTION COLLAR

- An inflatable collar which allows each patient to vary air pressure appropriate to the level of cervical distraction required
- Contoured one-piece design
- Velcro® closures for ease of application
- Lightweight, semi-rigid polyethylene

Reference	Size	Neck Circumference
US-A26700	Small	12 1/4" - 14 1/4"
US-A26701	Medium	14 1/2" - 17"
US-A26702	Large	17" - 20"

LERMAN MINERVA

- Immobilizes the cervical spine from C1 extending slightly past T1
- Reinforced aluminum anterior and posterior uprights, originating from the body jacket, make firm connection between occipital and mandibular molded pieces

Reference	Size	Length - From chin to distal edge of brace
US-A19-300-00SM	Small	12 1/4" - 14 1/4"
US-A19-300-00RG	Regular	14 1/2" - 17"

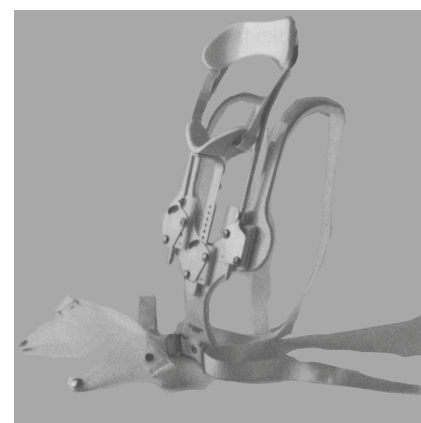

Replacement Components

Regular	Small	Description

US-10262	-	Silicone Chin Pad

S.O.M.I BRACE

- Sternal occipital mandibular immobilizer
- Adjustability to immobilize head in prescribed position
- Dorsal section allows patient to lie flat
- Chin support is easily removed as needed
- Ease of fitting in supine position ensures minimal disturbance

Ref.: US-A08-910-0000 Small 8" - 12" Height, patient height up to 4' 7"
 Ref.: US-A08-920-0000 Regular 11" - 15" Height, patient height over 4' 7"

CERVICAL COLLARS

LERMAN NON-INVASIVE HALO

- MRI compatible
- Bridges the gap between a conventional halo system and the Minerva
- Cervical stabilization is achieved through incorporation of non-allergenic skin adhering material into areas of skin contact on the head
- Anterior-only vest helps prevent posterior skin break down and ulcerations
- Universal adult size

Ref.: US-A37802

MALIBU CERVICAL COLLAR

- Soft closed cell foam liner with extra chin pad for patient's comfort
- Height adjustment anterior and posterior
- Vinyl straps allow for circumferential adjustment, attaches with snap fasteners for positive adjustment
- Available with hook and loop straps upon request
- Anterior opening for tracheotomy tube
- One size only
- Size range (chin to occiput measurement) approximately 16" - 23"
- Will fit about 80% of the adult population

Ref.: JS-3020
JS-3020-V

Standard Malibu
Malibu with Velcro

MALIBU THORACIC EXTENSION

To be used with the Malibu Cervical Collar above, for increased stability

- The thoracic extension is positioned and attached between the adjustment components on anterior and posterior sections of the collar with longer Chicago screws supplied with each unit
- Velcro® side closures
- One size only

Ref.: JS-3030

CERVICAL COLLARS

PHILADELPHIA® TRACHEOTOMY COLLAR

The Philadelphia collar stabilises the cervical spine (neck) for stable fractures and soft tissue injury or instability.

Features and Benefits:

- Restricts cervical spine flexion, extension and rotation to promote patient recovery.
- Adjustable bilateral hook and loop fasteners ensure proper fit.
- Anterior and posterior rigid plastic reinforcement supports limit movement.
- Large trachea opening for quick access to carotid pulse monitoring and emergency tracheotomies.
- Two-piece design enhances patient comfort.
- Total cervical arch support maintains neutral alignment of the cervical spine.
- Conformance to the shoulder and mandible contour allows superior stability and comfort.
- Ventilation openings reduce heat and moisture.
- Maneuverable chin support for airway management.
- Water-resistant for bathing and aqua-therapy.
- Easily customized for individual requirements.
- Latex-free, non-toxic and hypoallergenic, X-ray, CT and MRI lucent

Changing the collar at home, Showering, Activities, ...

Please follow carefully the instructions supplied with the product.

CERVICAL COLLARS

MIAMI J® CERVICAL COLLAR

Known as the superior c-spine immobilizer on the market through multiple independent studies, the Miami J® collar's patented design meets the specialized needs of all those afflicted with cervical injuries. The Miami J® offers features that enhance compliance and help speed recovery while ensuring immobilization, inhibition of skin breakdown and patient comfort.

Features and Benefits:

- Sorbatex™ padding is antibacterial and clinically proven to inhibit microbial growth, which enhances comfort and helps assure patient compliance
- Bioengineered to minimize pressure points in key known areas; chin, occiput, trapezius and clavicle
- Sizing based on 6 phenotypes to assure proper fit and optimum immobilization
- Comfort adjustment buttons for occiput and mandible, removable sternal pad for supine and swallowing

Miami Jr.® Cervical Collar

MIAMI JR® CERVICAL COLLAR

The only collar that addresses unique pediatric alignment and airway changes

Pediatric c-spine care is distinct from adult care. The reason is basic - Children are built differently. The Miami Jr.® is an innovative collar designed exclusively for children 12 and under.

Features and Benefits:

- Four true pediatric sizes ensure optimal airway and upper cervical spine immobilization
- Sized according to the Broselow-Luten Color Coding system
- Meets the developing anatomical requirements unique to children
- Sorbatex™ pads make the collar "skin friendly" and protect skin integrity during extended wear.
- Adjustment options such as Angulation Buttons, a removable Sternal Pad and an optional Assist Strap allow for the greatest amount of flexibility and comfort in a collar.
- Flared occipital support to address unique shape differential of pediatric occiput to back.
- Latex-free and compatible with all imaging modalities.
